

Dear Business Partner,

we shortly will move into our brand new company building in Salem/Germany.

In the future, all substantial divisions, such as machining, final assembly, sales, and administration will be merged into one common facility with over 3.000m² space. This enables our most efficient and effective processes, providing an ideal working environment that will allow us to increase our capacities acc. the market demands.

To avoid any interruptions in the general business process, we kindly ask to notice following changes of our company data with effect of **21th of October 2019.**

New physical invoice and delivery address + new company name
